Contents of *Veterinary Microbiology*, Volume 24

VOL. 24 NO. 1 JULY 1990

Antibodies to Aujeszky's disease virus in pigs immunized with purified virus glycoproteins
G. Iglesias, T. Molitor (St. Paul, MN, U.S.A.), D. Reed and J. L'Italien (Minnetonka, MN, U.S.A.) 1
Characterisation of *Chlamydia psittaci* isolated from a horse
J.M. Wills, G. Watson, M. Lusher (Manchester, Great Britain), T.S. Mair (Bristol, Great Britain), D. Wood and S.J. Richmond (Manchester, Great Britain) 11
Efficacy against ovine enzootic abortion of an experimental vaccine containing purified elementary bodies of *Chlamydia psittaci*
I.E. Anderson, T.W. Tan, G.E. Jones and A.J. Herring (Edinburgh, Great Britain) 21
Biochemical and immunochemical characterisation of strains of *Treponema hyodysenteriae*
S.C. Smith, F. Roddick, S. Ling (Melbourne, Vic., Australia), N.L. Gerraty (Noble Park, Vic., Australia) and P.J. Coloe (Melbourne, Vic., Australia) 29
Factors influencing the degree of in vitro bacterial adhesion to ovine mammary gland epithelial cells
B. Amorena, R. Baselga and B. Aguilar (Zaragoza, Spain) 43
Bactericidal activity in the sera of mice vaccinated with *Pasteurella multocida* type A
T.G. Wijewardana and A.D. Sutherland (Edinburgh, Great Britain) 55
Susceptibility of Mongolian gerbils (*Meriones unguiculatus*) to leptospires and the protective effect of vaccination
M. Yukawa, K. Mochizuki (Fujisawa, Japan) and S. Imamura (Tokyo, Japan) 63
Diagnosis of bovine brucellosis by enzyme immunoassay of milk
P. Kerkhofs (Brussels, Belgium), Y. Botton, P. Thiange (Erpent, Belgium), P. Dekeyser and J.N. Limet (Brussels, Belgium) 73
The influence of growth conditions of *Pasteurella multocida* on its ability to colonise the nasal mucosa of SPF piglets
B. Éliás, M. Herpay, M. Albert (Budapest, Hungary), J. Fekete (Szeged, Hungary), S. Tuboly, P. Rafai and E. Molnár (Budapest, Hungary) 81
Characteristics of the Shiga-like toxin produced by *Escherichia coli* associated with porcine edema disease
V.P.J. Gannon and C.L. Gyles (Guelph, Ont., Canada) 89

Book Reviews
Orthopox viruses 101
Rabies 103

VOL. 24 NO. 2 AUGUST 1990

Expression of fowl adenovirus type 10 antigens in *Escherichia coli*
M. Sheppard and W. Werner (Parkville, Vic., Australia) 105
Isolation and restriction endonuclease analysis of a tetracycline resistance plasmid from *Staphylococcus hyicus*
St. Schwarz and H. Blobel (Giessen, Federal Republic of Germany) 113
Slide precipitation: a simple method to type *Actinobacillus (Haemophilus) pleuropneumoniae*

J. Hommez (Torhout, Belgium), L.A. Devriese (Ghent, Belgium), F. Castryck and P. Cassimon (Torhout, Belgium) 123
Detection of *Eperythrozoon suis* DNA from swine blood by whole organisms DNA hybridizations
R.D. Oberst, S.M. Hall and D.A. Schoneweis (Manhattan, KS, U.S.A.) 127
The growth response of *Mycoplasma hyopneumoniae* and *Mycoplasma flocculare* based upon ATP-dependent luminometry
G.W. Stemke and J.A. Robertson (Edmonton, Alta., Canada) 135
The humoral immune response of lambs experimentally infected with *Mycoplasma ovipneumoniae*
D. Thirkell, R.K. Spooner (St. Andrews, Great Britain), G.E. Jones (Edinburgh, Great Britain) and W.C. Russell (St. Andrews, Great Britain) 143
The humoral immune response of chickens to *Mycoplasma gallisepticum* and *Mycoplasma synoviae* studied by immunoblotting
A.P. Avakian and S.H. Kleven (Athens, GA, U.S.A.) 155
A complex-trapping-blocking (CTB) ELISA, using monoclonal antibodies and detecting specifically antibodies directed against foot-and-mouth disease types A, O and C. I. Method and characteristics
C. van Maanen (Lelystad, The Netherlands) 171
A complex-trapping-blocking (CTB) ELISA, using monoclonal antibodies and detecting specifically antibodies directed against foot-and-mouth disease types A,O. and C. II. Application
C. van Maanen (Lelystad, The Netherlands) 179
A complement-dependent neutralizing monoclonal antibody against glycoprotein II of pseudorabies virus
T. Nakamura, T. Ihara, T. Nagata (Tokyo, Japan), A. Ishihama (Shizuoka, Japan) and S. Ueda (Tokyo, Japan) 193

Short Communications

A spiral microorganism in the stomach of pigs
D.M.M. Queiroz, G.A. Rocha, E.N. Mendes, A.P. Lage, A.C.T. Carvalho and A.J.A. Barbosa (Belo Horizonte, Brazil) 199
The development and evaluation of an enzyme-linked immunosorbent assay for the detection of *Mycobacterium bovis*
B.J. Duffield (Townsville, Qld., Australia) 205

Book Review

Diagnostic virology 211

VOL. 24 NOS. 3–4 SEPTEMBER 1990

Preface
P.S. Paul (Ames, IA, U.S.A.) 215
The magic and challenge of DNA probes as diagnostic reagents
D. Gillespie (Philadelphia, PA, U.S.A.) 217
Methodologies for in vitro nucleic acid amplification and their applications
T.R. Gingeras (La Jolla, CA, U.S.A.), D.D. Richman (San Diego, CA, U.S.A.), D.Y. Kwoh (La Jolla, CA, U.S.A.) and J.C. Guatelli (San Diego, CA, U.S.A.) 235
Development and characterization of nucleic acid probes to infectious bursal disease viruses
D.J. Jackwood (Wooster, OH, U.S.A.) 253
Detection of avian infectious bronchitis viral infection using in situ hybridization and recombinant DNA
E.W. Collisson, J. Li, L.W. Sneed, M.L. Peters and L. Wang (College Station, TX, U.S.A.) ... 261

Detection of latent pseudorabies virus in swine using in situ hybridization
T.M. Brown, F.A. Osorio and D.L Rock (Lincoln, NE, U.S.A.) 273
Polymerase chain reaction amplification of pseudorabies virus DNA from acutely and latently infected cells
R.K. Maes, C.E. Beisel, S.J. Spatz and B.J. Thacker (East Lansing, MI, U.S.A.) 281
Detection of bovine viral diarrhea virus in serum from cattle by dot blot hybridization assay
K.V. Brock (Wooster, OH, U.S.A.) and L.N.D. Potgieter (Knoxville, TN, U.S.A.) 297
Development of specific nucleic acid probes for the differentiation of porcine rotavirus serotypes
M.E. Johnson, P.S. Paul (Ames, IA, U.S.A.), M. Gorziglia (Bethesda, MD, U.S.A.) and R. Rosenbusch (Ames, IA, U.S.A.) 307
Hybridization probes for the detection and differentiation of two serotypes of porcine rotavirus
B.I. Rosen, L.J. Saif, D.J. Jackwood (Wooster, OH, U.S.A.) and M. Gorziglia (Bethesda, MD, U.S.A.) 327
Characterization of *Listeria monocytogenes* isolates by Southern blot hybridization
I.V. Wesley, R.D. Wesley (Ames, IA, U.S.A.), J. Heisick, F. Harrell and D. Wagner (Minneapolis, MN, U.S.A.) 341
Nucleic acid probe characterizes *Leptospira interrogans* serovars by restriction fragment length polymorphisms
R.L. Zuerner and C.A. Bolin (Ames, IA, U.S.A.) 355
Species-specific DNA probes for *Campylobacter* species isolated from pigs with proliferative enteritis
C.J. Gebhart, M.P. Murtaugh, G.-F. Lin and G.E. Ward (St. Paul, MN, U.S.A.) 367
Comparison of a DNA probe, complement-fixation and indirect immunofluorescence test for diagnosing *Anaplasma marginale* in suspected carrier cattle
W.L. Goff (Pullman, WA, U.S.A.), D. Stiller, R.A. Roeder, L.W. Johnson, D. Falk (Moscow, ID, U.S.A.), J.R. Gorham and T.C. McGuire (Pullman, WA, U.S.A.) 381
Development of a recombinant *Anaplasma marginale* DNA probe
R. Aboytes-Torres and G.M. Buening (Columbia, MO, U.S.A.) 391
Applications of nucleic acid probes in veterinary infectious diseases
P.S. Paul (Ames, IA, U.S.A.) 409
